Our Role in Improving Health Care in RI

RIBGH gives Rhode Island businesses a “*seat at the table*” with respect to broad issues around reforming our health care system:

- Improving health care quality, access and affordability,
- Increasing transparency in health care cost and quality,
- Leveraging technology to improve quality and reduce cost,
- Strengthening our primary care network,
- Increasing employee wellness and consumer engagement, and
- Giving employer / purchasers a voice in the public policy debate.

As a member of the National Business Coalition on Health (NBCH) we are also Rhode Island’s business voice in the broader national discussion on health care reform and value-based purchasing.
